

#### **4. What's Working? What's Needed?**

*We had a place to share best practices, to give voice to something that bothers us, and create ideas for activism around it*

- URI North America CC members

Every voice matters in URI. URI's 20<sup>th</sup> Anniversary year is a good time to talk about what's working well and what is needed?

- a) What experiences or successes in peacebuilding and community organizing with URI give you pride and satisfaction?
- b) In what areas does URI need to grow? What would you like to see changed, added, renewed in URI?

*Listening to each other matters. Please connect with larger community by sharing highlights of discussion and activities at [uri.org/facebook](https://www.uri.org/facebook).
